

STANDARD OPERATING PROCEDURE: HSE-SOP-012 FIRE EMERGENCY

Document Details

Procedure Code: HSE-SOP-012 | Department: HSE | Revision: 4.2

Section 3.0 Emergency Actions

What should an employee do during a fire emergency:

1. Immediately raise the alarm by activating the nearest Manual Call Point (MCP) or calling plant control on extension 5555.
2. Stop hot work and initiate emergency machinery shutdown only if safe to do so within 10 seconds.
3. Evacuate the facility immediately using designated emergency exit routes. Never use elevators during a fire evacuation.
4. Proceed directly to designated Emergency Assembly Point B (North Lawn).
5. Report to your assigned Department HSE Warden for roll call.
6. Do not re-enter the facility until the Incident Commander has officially given the all-clear signal.
